DETAILED ACTION

Response to Amendment

1. The amendment filed February 5, 2009 has been entered. Examiner sincerely appreciates Applicant's voluntary amendments to the specification to make grammatical and idiomatic improvements

Allowable Subject Matter

2. Claims 20-34 are allowed.

3. The following is an examiner's statement of reasons for allowance: The closest prior art of record (House US Patent 5,883,967) teaches a speaker wherein the voice coil connects to the outermost portion of the diaphragm via a bobbin, and the edge connects to the diaphragm, at a point, more inward than the outer peripheral portion. Furthermore, House teaches the diaphragm connected to the voice coil via ribs, creating slots (i.e. through holes) underneath the edge portion. Neither House, nor the prior art of record, when viewed alone, or in combination teaches "said outer peripheral portion of said diaphragm [being] interposed between said through hole and said voice coil" as stated in independent claim 20, including all other limitations of claim 20.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
